Mck man arrested after shootings, epic chase

release from the corner. The child was at the home in the Pine Hill neighborhood of Eureka when the shooting took place.

The shooting

On Tuesday, Dec. 27 at about 12:12 a.m., Humboldt County Sheriff's deputies were dispatched to a residence on the 4000 block of Crane Street, in the Pine Hill area of Eureka, in response to a 911 call in which yelling and a child screaming were heard in the background.

While en route, deputies learned that there was a shooting at that location and at least one person was shot.

Deputies arrived and located three persons with gunshot wounds at the residence. Life-saving measures were attempted, however, both Garcia and Paddock died as a result of serious gunshot injuries.

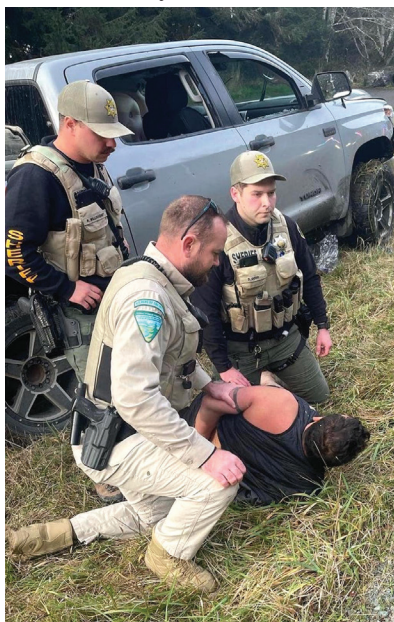

Emergency medical personnel arrived and rendered aid to an adult female and she was subsequently transported to an area hospital where she underwent immediate emergency surgery.

A 4-year-old child was on scene during this incident. The child was checked by EMS and determined to be uninjured. The child was placed in safe custody with Child Welfare Services.

Upon further investigation, deputies learned that there was an additional adult female victim who sustained a gunshot wound at the Crane Street residence.

Albers dropped the female victim off at an area hospital, where she underwent surgery and is in stable condition. After dropping her off, Albers fled the scene. An arrest warrant was issued.

of Dec. 28 on suspicion of two counts of homicide and two counts of attempted murder.

On Dec. 30, the Humboldt County Sheriff's Coroners Division released the victims' names and causes of death. They are Daniel "Danny" Garcia, 51, who died of a gunshot wound to the abdomen, and Jennifer Paddock, 42, who died of a gunshot wound to the chest.

"Garcia and Paddock were domestic partners with a 4-year-old child in common," stated a press

Wiggly New Year! A 5.4 for 2023

MAD RIVER UNION

HUMBOLDT — New year's morning saw Humboldt with another case of the wobbles as a 5.4 magnitude earthquake rocked already-rattled residents at 10:35 a.m. Sunday morning.

According to the U.S. Geological Survey, the 5.4 magnitude earthquake occurred about 30 miles south of Eureka, centered about 9 miles southeast

of Rio Dell. Initial estimates said that it occurred at a depth of about 17.3 miles.

While the quake was an unsettling callback to the 6.4 that caused destruction and two deaths on Dec. 20, the experience and subsequent impacts were much milder.

Caltrans temporarily closed State Route 211 at Fernbridge Road to conduct safety inspections.

Humboldt navigated transitions in 2022

Daniel Mintz

MAD RIVER UNION

HUMBOLDT — 2022 saw Humboldt County in transition socially and economically. Debate over cannabis permitting grew as farmers faced a slumping market but new avenues of economic opportunity emerged.

The year also marked an apparent "return to normalcy" after peaks of COVID, but things still aren't quite as normal as before.

New age of disease

As 2022 began, SARS-Cov-2 took on a new form — the Omicron variant.

Previous coronavirus blooms had a double-edged impact — the effects of disease and the social effects of public health restrictions.

So even minor measures got pushback by the time Omicron became dominant. Facing public

rebellion, health officials waffled on masking, advising people to wear them but no longer supporting requirements to do so.

Either due to increased immunity from vaccinations and infections, characteristics of Omicron or both, hospitalizations and deaths didn't reach the levels of

previous high peaks. They still came at a steady pace but popular thinking that COVID was over and life was back to normal took hold.

Meanwhile the virus's evolutionary trends got more troublesome, with ever-greater infectiousness and immune evasion.

The chase

The next day, Dec. 28 at 1:46 p.m., Humboldt County Sheriff's deputies were dispatched to the 1900 block of Pishka Court in McKinleyville for the report of a sighting of Albers.

Albers was seen leaving the area is a gray Toyota Tundra by a deputy sheriff and a pursuit ensued. Deputies pursued the vehicle southbound on U.S. Highway 101 to Arcata before heading north on U.S. Highway 101 at speeds excess of 100 mph.

The pursuit went north bound on Highway 101 through Trinidad and proceeded north on Scenic Drive. The suspect then proceeded northbound on U.S. Highway 101 from Sue-meg State Park. The suspect was driving in excess of 100 mph northbound in the southbound lanes of U.S. Highway 101.

pursuit. CHP performed the PIT maneuver (Pursuit Intervention Technique) which forced the vehicle off the road; however, it continued in the shoulder of Highway 101. A deputy then rammed and immobilized the suspect vehicle. Russell Albers was taken into custody without further incident.

Albers was subsequently transported and booked into the Humboldt County Jail for two counts of homicide (PC 187), two counts of attempted murder (PC 664/187) and child endangerment (PC 273a).

"The Humboldt County

Sheriff's Office would like to thank the following agencies for their coordination and assistance with this pursuit: California Highway Patrol, State Parks, Bureau of Land Management, Eureka Police Department and Cal Poly Humboldt University Police Department," states a press release from the Sheriff's Office.

Star Wars festival, film 'soundstage' development pitched to supervisors

Daniel Mintz
MAD RIVER UNION

HUMBOLDT — Humboldt County's Film Commission is seeking to capitalize on the area's film production reputation with a multi-day *Star Wars* tourism event and construction of an indoor recording and filming studio.

Film Commissioner Cassandra Hesseltine briefed the Board of Supervisors on the new efforts at its Dec. 13 meeting.

Grizzly Creek Redwoods State Park is a featured setting in the *Star Wars* sequel *Return of the Jedi* and the commission wants to tap its tourism potential.

Envisioned is a three-day festival during the first weekend in June whose working title is Forest Moon Days.

Cassandra Hesseltine

"We would have activities that are all *Star Wars* related," she said. It would be a collaborative community event, with hotel and restaurant staffers donning "Star Wars garb."

Hesseltine said it could "potentially be a huge tourism activity — *Star Wars* fans go above and beyond, out to a galaxy far, far away to get to these kinds of events."

Another goal of the commission pre-dates Hesseltine's leadership, she said. For many years, the commission has sought to be "some kind of a film hub, this far north in California," she continued.

And in 2014, the establishment of an indoor film production studio — known as a soundstage — was added to the commission's list of wants.

Hesseltine described a soundstage as a sound-insulated filming space accommodating large sets. And if Humboldt creates one, it would be unique.

"There is no soundstage between San Francisco and Portland — we would be the only one," said Hesseltine. "So anything filming in a larger radius, they many come here and use our soundstage rather than going back home."

Some potential film and commercial

producers have asked if there's a soundstage in Humboldt, she continued. The Disney movie *A Wrinkle in Time* filmed in Humboldt and "perhaps would have continued to stay here if we would have had a soundstage but instead they just filmed the exterior shots."

Offices, a large parking lot and an "art department" would be associated with a soundstage and it could be "rented out" in between film shoots, said Hesseltine. There's also potential for collaboration with College of the Redwoods and Cal Poly Humboldt.

A third prong of commission visioning is establishing tax incentives for film productions. California has them and Hesseltine said the next step is for regions and cities to offer them, as Shasta County has done.

A soundstage is the most expensive and complex goal, and although Hesseltine would like to see one in operation in 2024, she expects it would take longer.

The Forest Moon Days fest is eyed for this summer and the commission is aiming at 2023 for a package of tax incentives.

Up for approval was staff support for pursuit of the commission's goals. Economic Development Director Scott Adair said his office processes filming permits so a working relationship is already established.

He said his office could help with site selection for a soundstage, including sites that have buildings that could be used. Support for the festival and an incentive program would include help with agenzidizing them for future board consideration.

Hesseltine's presentation also included a status report. She said a "major studio film" may be shooting in Humboldt this summer and in the last 12 years, there's been more than 250 film shoots in the Humboldt/Del Norte region, with more than 200 of them in Humboldt.

That's infused \$14 million in "direct dollars" to the region's economy, she continued.

A TRADITION BEGINS Santa came to spread cheer along with helpful local Girl Scouts to dozens of excited children who came to the Dow's Prairie Grange on Saturday, Dec. 17. Girl Scouts caroled and ran craft stations for kids while a pancake breakfast was served in the kitchen. The McKinleyville Lions Club was also on hand to provide free vision screening. The three non-profits hope this can become a cherished tradition.

Supervisors commentary included questions from Supervisor Rex Bohn about how many soundstage facilities are located in rural areas. Supervisor Michelle Bushnell was enthusiastic. She said the soundstage “sounds like a wonderful thing” and “in the unincorporated areas, there’s lots of space and we need lots of help.” Supervisors approved the staff support and an annual funding agreement with the commission.

Car-shooting brings arrest

MAD RIVER UNION
ARCATA/MCKINLEYVILLE
— An 18-year-old Eureka man was arrested Tuesday, Dec. 23 after allegedly firing a handgun at another vehicle while driving on U.S. Highway 101 north-bound south of State Route 299. The suspect, later identified as Daniel Robert Logan Fernandez Ralls, brandished a semi-automatic handgun and fired one round toward the other motorist. Mr. Fernandez Ralls fled the scene but was apprehended a short time later on Bates Road in McKinleyville, according to the California Highway Patrol. With the assistance of deputies from the Humboldt County Sheriff's Office, Fernandez Ralls was taken into custody by the California Highway Patrol (CHP) and booked into the Humboldt County Jail. The victim was uninjured and there was no damage reported or claimed as a result of this incident. The CHP asks if anyone witnessed this incident to call the Humboldt Area CHP office at (707) 822-5981.

The ever-smiling, eminently adoptable Cruz and Trooper

Happy New Year! I hope you and your pets all had a safe and quiet New Year's Eve. My most sensitive dog was lucky enough to spend the holiday up in the Trinity Alps with my kids, far from the fireworks and gunshots. She definitely had a happy New Year! The shelter dogs are pretty good with loud sounds, thanks in part to being so close to the airport and a nearby Skeet Club. They are all still enjoying the new toys and treats that were so generously donated over the holidays! There were enough for everyone to have something new to play with and some nice treats for the dogs that can't be left alone with toys without wanting to eat them. Don't worry; those pups still got to play with something new outside their kennels. Thanks to everyone who donated! Tall lanky Cruz is a handsome fellow that has been very popular as a play partner for other dogs at the shelter. Our volunteer page regularly has photos of an

upside-down Cruz playing with one or another of the other dogs! The volunteers say Cruz is fun to take out because he is always happy and has such a great energy about him. He enjoys his walk, getting to meet other dogs, playing in the yard and learning new skills. He has Sit down and is working on more. For Christmas, we spread a large assortment of new toys in a little

room and let each dog come in and choose a special present for themselves. Cruz took his time and investigated each toy before making his selection. He was so proud of his new toy and carried it all the way back to his kennel, trying to encourage his handler to play a little tug on the way! Cruz is about a year and a half and weighs around 60 pounds. Trooper is a cute hound boy. He was able to spend a few days at home with one of our volunteers which gives us some good info that we can't always glean from seeing them at the shelter. Trooper was a good house guest. He is well house-broken, got along with the other dogs and loved to cuddle or ride in the car when those opportunities presented themselves. At the shelter, Trooper has shown himself to be a smart boy and a quick learner. When we had a Halloween photo booth, Trooper was one of the easiest to get focused, dress up and get photos taken. Like a hound, he does like to follow his nose and is curious about the world, but he also is quite food-motivated and will

happily turn his attention back to his handler. Trooper is just over a year old and weighs about 60 pounds. Both Cruz and Trooper are neutered, microchipped and current on their vaccinations and are available through the Humboldt County Animal Shelter. The shelter now also tests all the adoptable dogs for heartworm. These two both tested negative for the parasites. They are adoptable for a fee that is less than the neuter alone would cost. Adopting a shelter animal is such a great deal! To meet Cruz or Trooper or any of their cat or dog friends, please contact the shelter at (707) 840-9132. You can see the available animals at anytime on the website 24PetConnect.com.

NOTICE TO POTENTIAL BIDDERS: If you are considering bidding on this property lien, you should understand that there are risks involved in bidding at a trustee auction. You will be bidding on a lien, not on the property itself. Placing the highest bid at a trustee auction does not automatically entitle you to free and clear ownership of the property. You should also be aware that the lien being auctioned off may be a junior lien. If you are the highest bidder at the auction, you are or may be responsible for paying off all liens senior to the lien being auctioned off, before you can receive clear title to the property. You are encouraged to investigate the existence, priority, and size of outstanding liens that may exist on this property by contacting the county recorder's office or a title insurance company, either of which may charge you a fee for this information. If you consult either of these resources, you should be aware that the same lender may hold more than one mortgage or deed of trust on this property.

NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call (866)-960-8299 or visit this Internet Web site <https://www.altsource.com/loginpage.aspx> using the file number assigned to this case 2020-01909-CA. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale.

NOTICE TO TENANT: You may have a right to purchase this property after the trustee auction, if conducted after January 1, 2021, pursuant to Section 2924m of the California Civil Code. If you are an "eligible tenant buyer," you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call (855)-976-3916, or visit this internet website <https://tracker.auction.com/sb1079>, using the file number assigned to this case 2020-01909-CA to find the date on which the trustee's sale was held, the amount of the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid, by remitting the funds and affidavit described in Section 2924m(c) of the Civil Code, so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder," you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase.

2022 | Cannabis crashes, wind rises, fentanyl festers

❖ FROM PAGE 1

Nationwide, statewide and countywide, cases and their consequences resumed stride as Omicron subvariants blossomed. You need a scorecard to keep track of 'em. First there was BA.2 and no sooner than a vaccine booster to protect against BA.4 and BA.5 rolled out, there came BQ.1 and BQ.1.1. As Christmas approached, the even more transmissible and vaccine-resistant XBB, a combo of BA.2.10.1 and BA.2.75, began to exponentially spread in East Coast states. As the New Year dawned yet another new and improved spawn of Omicron emerged, XBB.1.5, prompting immunology expert Anthony Fauci to say the most recent vaccine booster fails to provide “optimal protection.” But there's still mass perception that healthy folks have little to fear because COVID is flu-like. Which, if so, is very problematic. As the influenza season took off along with a respiratory disease known as RSV, COVID compounded health care struggles. And casualties are increasing in an ongoing war with disease.

Cannabis dilemmas

As the county's cannabis industry buckled under the weight of high operating costs and a supply-bloated market, environmental concerns complicated permitting. The county's first cannabis ordinance was approved in 2016 under a tight timeline, followed by a second one that included additional restrictions and requirements. But permit applications are pending under the initial ordinance and at times the Planning Commission conditioned approvals on switching from generators to solar power and having water storage if wells are used for irrigation – requirements that aren't in the first ordinance. That triggered appeals and the commission asked the Board of Supervisors for guidance on how to handle permitting. Supervisors couldn't agree on what to do and just told the commission to carry on as best as it could. Meanwhile the number of new permit applications nosedived as the industry continued to tank. Cannabis farmers implored the county to suspend the Measure S cannabis excise tax, which it did. Then the Humboldt Cannabis Reform Initiative emerged. The ballot measure drive seeks to “reduce the cannabis cultivation footprint and foster small-scale, environmentally-minded cannabis cultivation.” Petition-gathering was successful, gaining more than 7,000 signatures. But cannabis farmers say the proposed measure's provisions, including a puny 10,000-square-foot cultivation area limit, are daffy and will finally kill the local industry.

room and let each dog come in and choose a special present for themselves. Cruz took his time and investigated each toy before making his selection. He was so proud of his new toy and carried it all the way back to his kennel, trying to encourage his handler to play a little tug on the way! Cruz is about a year and a half and weighs around 60 pounds. Trooper is a cute hound boy. He was able to spend a few days at home with one of our volunteers which gives us some good info that we can't always glean from seeing them at the shelter. Trooper was a good house guest. He is well house-broken, got along with the other dogs and loved to cuddle or ride in the car when those opportunities presented themselves. At the shelter, Trooper has shown himself to be a smart boy and a quick learner. When we had a Halloween photo booth, Trooper was one of the easiest to get focused, dress up and get photos taken. Like a hound, he does like to follow his nose and is curious about the world, but he also is quite food-motivated and will

Obligated to put the measure up for an election vote in 2024, supervisors asked the measure's proponents to reconsider what they'd done. There was tentative agreement to do so but the outcome is uncertain.

'Blue Economy' surfaces

The decline of the cannabis market is one of 2022's big disappointments. But the year also saw new and game-changing economic developments. The term “blue economy” entered the local lexicon as Humboldt Bay suddenly became a magnet for innovative industries. The Norway-based Nordic Aquafarms company had picked the bay as the best site for a \$500 million indoor Atlantic salmon farm and gained county approvals for it. The facility will serve the entire West Coast and 300 construction jobs will be an initial economic payoff. Once in operation, the fish farm will have a workforce of 150. And in early December, Humboldt made national news as federal leases for two wind energy development areas offshore of Eureka totaled more than \$331 million. A Dec. 7 press release from the U.S. Department of the Interior notes that the winning bidders can get a 20 percent credit for funding workforce training programs and a five percent credit for projects helping impacted ocean users like commercial and tribal fishermen. Wind energy's economic boost is already in formation. The county's Harbor District got a \$10.5 million state grant toward development of an 86-acre wind energy supply facility. It's described as a “West Coast hub for the industry.” A partnership with a major marine terminal development company, Crowley Wind Services, will supply Humboldt and other areas offshore of Morro Bay and likely Oregon with wind energy turbines and gear. An imminent construction boom is also driven by Humboldt State University's evolution into Cal Poly Humboldt, one of only three polytechnic universities in the state's system. Its new focus on science, technology, engineering and math programs has already sparked an increase in enrollment. An 8,000-student enrollment jump is expected by 2030, sparking plans to build more housing.

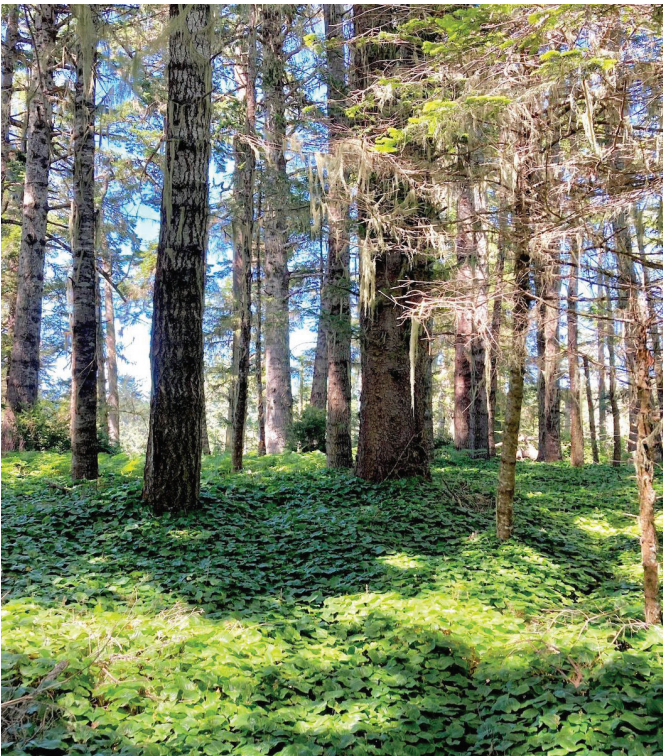

'Tired of this bullshit'

County government politics would have been relatively even-tempered if not for turbulence churned by the Auditor-Controller's Office. Elected in 2018, Auditor-Controller Karen Paz Dominguez sought to fix what she described as longstanding problems, including sloppy cash handling and lack of financial reporting by major county departments. Her penchant for absolute accu-

racy led to failure to file financial reports to the state on time. That resulted in reimbursement losses covered with county General Fund money. Special districts and non-profits were also left in alarming financial lurches. Supervisors fielded a letter from various unnamed county staff members, managers and department heads indicating litigation would be afoot unless something was done about Paz Dominguez's conduct. Meanwhile the state's Attorney General's Office stepped in with its own litigation related to the mess. Supervisors refused to defend Paz Dominguez and voted to file a “cross complaint” against her. The situation became increasingly messy, with Supervisor Rex Bohn at one point exclaiming, “I'm tired of this bullshit.” As if with a sweep of a wand, the whole thing seemingly evaporated when Cheryl “no drama” Dillingham easily won last June's Auditor-Controller election. Litigation was settled and Paz-Dominguez forged an agreement with the county that included a payment to her and immediate resignation from her post. Since then, the Auditor-Controller's Office hasn't gotten a peep of news coverage.

Odd's and ends

Other newsy happenings during the year included former Planning Commission Chair Alan Bongio's loose-lipped railing against “the Indians” seeking more protection for tribal cultural resources in the area of a mansion developed by one of his friends. Bongio's abrasive commentary resulted in loss of his commission chairmanship and a rebuke by county supervisors. He decided to resign as the year ended. Also during the year, mental illness became a phenomenon rivaling COVID, as supervisors were told that there's more need for acute psychiatric care than the county can handle. Supervisor Steve Madrone said that he'd believed COVID was the driver of health care overloads but during an autumn visit to a hospital E.R., “The staff informed me it was really the psychiatric issues that were the primary overload and COVID added to that.” Another health issue – the sometimes fatal consequences of fentanyl use – was flagged as an emergency. On May 10 – National Fentanyl Awareness Day – County Sheriff Billy Honsal warned that fentanyl is the leading cause of death in young people and the last two years have seen a “skyrocket” in local overdoses. Even small amounts of the stuff can be deadly. “It really could take one pill – and you're it, it's done,” Honsal said.

An ordinance which would eliminate the “purple bus” was passed over by the Arcata city Council last week... The purple bus has achieved recognition recently since Councilman Paul Wilson brought up the idea of getting it off the streets of Arcata. The bus is occupied by a student who is beating paying rent. However, the city feels the student, and the 10 or 11 others who also live in vehicles, present a health threat. — Arcata Union, April 12, 1973

HUMBOLDT COUNTY DISTRICT ATTORNEY'S OFFICE
EUREKA – On Dec. 29, 20-year-old Joseph Boxell received a seven-year prison sentence following his plea to a charge of assault by means likely to produce great bodily injury with a strike prior.

Boxell committed the strike prior on Jan. 12, 2021 in Arcata, when he brandished a firearm at two people walking by (thereby committing another felony assault). He pled “open” to that case, meaning all sentencing options were left open to the judge, who chose to give him probation.

Boxell’s more recent assault occurred on July 4, 2022, while the victim was watching fireworks with his child in Old Town Eureka.

The incident began with people verbally abusing the victim, including the use of racial slurs.

Boxell then got out of his car, approached the victim from behind, and hit the victim twice in the head with a wine bottle. The victim required treatment at a hospital.

Boxell was sentenced to a

total of 7 years in prison: the strike prior doubled the 3-year term for the more recent assault, and Boxell received an additional year for the probation violation.

(The evidence did not support the application of hate crime statutes, in that Boxell did not personally use racial slurs and

his motivation for committing the assault could not be linked beyond a reasonable doubt to bias against a particular group. [His prior assault did not involve possible hate crime issues.]

District Attorney Maggie Fleming thanked Assistant Chief Stephens and Officer Barrett of the Eureka Police Department and Deputy District Attorney Emily Norgaard for their diligent work on the case.

Here's to the frontliners

There is no way of knowing who they are, but I want to thank the members of the utility crews who repaired the damage to the power grid caused by the 6.4 magnitude earthquake on Dec. 20.

The crews worked approximately 20 hours to restore power to thousands of customers. These are the frontline workers who don't get enough credit for keeping the lights on no matter what the conditions might be.

I, for one, want to thank them for fixing the problem so quickly.

Welcome to 2023

I was born in the late 1940s, a true member of the Boomer Generation. It was a time of the McCarthy witch-hunts that masqueraded as a search for truth.

This continued until well after the death of J. Edgar Hoover and in some form continues today. I survived the John Birch Society, the Nixon years and Ronnie Reagan as both governor of California and president of the United States.

I mention this time-line to assure you that I have watched the Republican Party since I was a child. A child of working-class parents whose families fought and died for unions and labor; I have always known that the Republicans do not care a whit for ordinary citizens.

These past 5 or 6 years have seen some extraordinary political maneuvers that would make most sane men and women shy away from an association with the perpetrators.

Now comes word that the Republicans ran a candidate from the New York Third district who lied about everything and was still elected.

This district has an average income level of \$130,000 so we can assume these are educated, mostly white voters who never asked any real questions about the candidate. He was opposed by someone from the

❖ LETTERS

"D/Family Party," whatever that means.

The election has been certified by New York State and he will be seated by the Republicans in Congress, nothing can stop that except his resignation.

The Republicans will seat him for two reasons. One, they need the number since their majority is so slim and two, they don't really care. Once he is sworn in and seated it will be two years before he will be gone.

What happened? Did the DNC not vet him? Has the seat been a Democratic stronghold for so long no one thought to ask questions? Why did this all come out after he was elected not before?

We could say that the people who voted for him will get what they deserve. Unfortunately, his actions will not just affect his district, they will affect the whole country. This is just another McCarthy chasing power to the detriment of us all.

In other news, Trump's Tax returns. Is anybody really surprised that he paid no taxes and took horrendous losses? I remind you this is the way the Feds put Al Capone away for the rest of his life? I wonder if Trump has tertiary syphilis?

Thank you for listening,
Jan Phelps

Imbroglios resolved-ish

We should commend the author and voters on the initiative that places the Earth flag atop the U.S. flag.

The Arcata city attorney seems to have made it plain that it was not compliant with the law, but laws are made to be broken. We hope it won't cost the city (and thus you) money.

At least Arcata has the Craftsman Mall housing site plan sorted, with the minor problem with the Fire Dept. maximum height for rescue easily rectified.

The Wings of a Bee

The Wings of a Bee

I was born 3.7 billion years ago. my mother was an atom my father a photon I didn't have to make a living in those days Grandfather saw to that moments after the big bang burst into myriad pieces of molten debris shooting across the dark void

From such original matter everything that is has come to be the restless molecules endlessly undergoing chemical reactions the same in both the living and the non-living for all matter is alike in substance including the bodies of the first organisms that would cross from the other world into this one

The blue planet hurtling through the cosmos suffices for my human needs attended to by the patient and loving Earth-Mother whose continents are so pretty who rains down fresh water to fill the rivers who grows forests sprinkled with Father's sunlight

I will build a house from the trees make a clearing to plant my garden receive with gratitude my allotted bounty offered up by the Mother whom we all share she who gives and gives letting her children take and take consuming her resources as if they are infinite but they are not nor are we who have been made from them

Sky-Father started all this by pouring down on our lifeless planet energy unending when organisms arose he continued turning his back calmly at the at the end of each day leaving a trail of darkness to drug with sleep the memories of the countless species created over evolutionary time as the lands filled with frightful beasts and horned monsters that lurk in our dreams

Of all the organisms created since life's beginning—a singular

event no one can explain—only one of them has come to see the whole of Being I know that one day the disposition of atoms that make up my body will dissolve into what they were before returning all that made me back to Grandfather

This life that I love will close as it must remembered perhaps for a while in the annals of the living until the final oblivion but the substantial part will not die because my maker only leant me this body for one lifetime and then there will be other places for my matter to go

O to alight on a sunlit granite out-cropping on a mountain or to swirl into the vicinity of a honey-bee just then emerging into this world let it absorb some of my immortal atoms strong wings will it need for the swift flights among the corollas shamelessly offering their sweet nectar to every frenzied honey-bee going by unless Grandfather needs me elsewhere in the cosmos into the wings of a bee I would like to go next

Trans-spotting

Florida Governor Ron DeSantis was reviewing all his state's departments when he came upon the Department of Transportation. After a pause, he noticed a banned word was hiding in plain sight, "Trans."

He immediately thought, "I'll have to change this. None of my departments is going to promote grooming."

So he changed its name to the less-interferenced "Department of Moving Stuff Around," or DOMSA for short. He then put out a press release proclaiming the genius of DOMSA, and declaring that, once again, Florida leads the way among all states in the "Anti-Grooming Movement."

After that, he headed off for his weekly grooming at the barber.

Just don't tell him.

SACRAMENTO – As we head into the new year, the California Highway Patrol (CHP) is educating the public on traffic safety laws that were passed during this year's legislative season and signed by Governor Gavin Newsom. The laws take effect January 1, 2023, unless otherwise noted.

Public Employment: Peace Officers: Citizenship (Senate Bill (SB) 960, Skinner)

The law maintains that peace officers, including peace officer trainees, be legally authorized to work in the United States consistent with federal law and regulations, however, removes the requirement that they be citizens or permanent residents of the United States.

Catalytic Converters (SB 1087, Gonzalez) (Assembly Bill (AB) 1740, Muratsuchi)

These laws specifically list who can sell catalytic converters to recyclers and require those recyclers to keep documentation such as the year, make, model, and copy of the vehicle title from

which the catalytic converter was removed. The purpose of these laws is to help reduce catalytic converter theft.

Vehicular Manslaughter: Speeding and Reckless Driving (SB 1472, Stern)

This law expands the criteria for "gross negligence" as it relates to the crime of vehicular manslaughter. Drivers involved in sideshow activity, exhibition of speed, or speeding over 100 miles per hour which results in a fatality could now be charged with Vehicular Manslaughter with Gross Negligence.

Motor Vehicle Speed Contests and Exhibitions of Speed (AB 2000, Gabriel)

Parking lots and off-street parking facilities are now included as locations where it is a crime to engage in a speed contest, exhibition of speed, or sideshow activity.

Endangered Missing Advisory: Feather Alert (AB 1314, Ramos)

The new "Feather Alert" allows law enforcement agencies

to request the CHP to initiate an alert when an indigenous person has been kidnapped, abducted, or reported missing under unexplained or suspicious circumstances, and specific criteria has been met to permit alert activation. Additionally, consistent with the Department's existing AMBER, Blue, and Silver Alert programs, this new "Feather Alert" program encourages the use of radio, television, and social media to spread the information about the missing indigenous person.

Hit-and-Run Incidents: Yellow Alert (AB 1732, Patterson)

This law authorizes law enforcement agencies to request the CHP to activate a "Yellow Alert" when a fatal hit-and-run crash has occurred, and specific criteria has been met to permit alert activation. The law also encourages local media outlets to disseminate the information contained in a Yellow Alert. The new law serves to use the public's assistance to improve the investigatory ability for law enforcement agencies throughout the state when work-

ing to solve fatal hit-and-run crashes.

Online Marketplaces: Reporting (AB 1700, Maienschein)

This law requires the Attorney General's Office to create an online reporting system for users of third-party online marketplaces to report listings of suspected stolen items. The reported information would be available to local law enforcement and the CHP's Organized Retail Crime Task Force to assist with investigations.

Bicycles Omnibus Bill (AB 1909, Friedman)

Much like the move over or slow down law, this law provides for increased protections to bicyclists by requiring vehicles passing or overtaking a bicycle in the same direction, to move over to an adjacent lane of traffic, if one is available, or slow down and only pass the bicyclist when safe to do so. The law also permits Class 3 e-bike riders to use approved bicycle paths and trails, bikeways, and bicycle lanes. The law prohibits local governments from requir-

ing bicycle registration and allows local authorities to prohibit any electric bicycle on an equestrian, hiking, or other recreational trail.

Electric Bicycles: Safety and Training Program (AB 1946, Boerner Horvath)

This requires the CHP to work with other traffic safety stakeholders such as the California Office of Traffic Safety, to develop statewide safety and training programs for electric bicycles. This training program, which will consist of electric bicycle riding safety, emergency maneuver skills, rules of the road and laws pertaining to electric bicycles, will launch on the CHP's website in September 2023.

Pedestrians (AB 2147, Ting)

This law prohibits peace officers from stopping pedestrians for certain pedestrian-specific violations, such as crossing the road outside of a crosswalk, unless there is an immediate danger of a crash. The CHP reminds all road users of the responsibility to travel safely and look out for one another on the road.

They wouldn't scam us if we didn't keep falling for it, so let's try these useful tips

HUMBOLDT COUNTY SHERIFF'S OFFICE

HUMBOLDT – The Humboldt County Sheriff's Office has recently received several reports of a phone scam targeting our community.

As part of this scam, the caller claims they are from the Humboldt County Sheriff's Office and may identify as current and/or former employees. The scammer tells the victim that he is a deputy and claims that the victim missed a subpoena to court and must now pay a fine immediately to avoid arrest.

Some victims have reported that the scammer knows personal information about them, including nicknames and former court records and insists that they are not allowed to get an attorney or seek outside help. The scammer is spoofing the HCSO's phone number, (707) 445-7251, with their caller ID identifying the caller as our office.

The Humboldt County Sheriff's Office would like the community to know that this is a scam. While law enforcement may contact you regarding a warrant or investigation, we will never demand payment in exchange for dropping a warrant or stopping an investigation.

Additionally, no government agency will ask you to mail large sums of cash, use a credit card over the phone or pay with gift cards or pre-paid money cards. If you have any questions about a call, please call us at (707) 445-7251.

Remember these tips to help protect yourself from fraud:

- **Spot imposters** – Scammers often pretend to be someone you trust, like a government official, a family member, a charity or a company with which you do business. Don't send money or give out personal information in response to an unexpected re-

quest – whether it comes as a text, a phone call or an email.

- **Do online searches** – Type a company or product name into your favorite search engine with words like "review," "complaint" or "scam." Or search for a phrase that describes your situation, like "IRS call." You can even search for phone numbers to see if other people have reported them as scams.
- **Don't believe your caller ID** – Technology makes it easy for scammers to fake caller ID information, so the name and number you see aren't always real. If someone calls asking for money or personal information, hang up. If you think the caller might be telling the truth, call back to a number you know is genuine.
- **Talk to someone** – Before you give up your money or personal information, talk to someone you trust. Con artists want

you to make decisions in a hurry. They might even threaten you. Slow down, check out the story, do an online search, consult an expert – or just tell a friend.

- **Don't rely on personal information** – Living in the digital age, access to information is easier than ever. Scammers are often able to get their hands on very personal information, providing it to their victims to make their scam look more legitimate. Don't trust a scammer who is able to provide your personal information. If you followed the above tips and still aren't sure, call back at a publicly listed number for the organization from which the scammer claims to be or contact your loved one directly.

Oil paintings on display at Marsh Interpretive Center

FRIENDS OF THE ARCATA MARSH

Artist's Statement from Steven Taylor

The realization that oil painting would be a transformative event in my life was not a consideration just a decade ago. As can only happen by looking back over the years, an image emerged through the foggy memories that..... I have always been an artist.

This observation became clear in a comment shared by a friend and admired artist: "Artists make art for other artists." The meaning was lost on me until I started noticing how this concept played out. Artists will notice art: they enter a room and see

the displayed art (or lack of it). Artists see art all around them; they will view their environment as a composition, picking out points of interest and determining why they stood out, connecting the big picture with a story to tell, and then beginning to weave a tale with the imaginary brush. Artists see art while others are unaware or uninterested.

After retiring from a career in carpentry and furniture making, I determined working in wood to be a natural fit for my free time. My fork-in-the-road experience came in the form of a pile of French easel pieces at a flea market that I knew was only in need of the addition of some missing hardware. Twelve dollars later, I was the proud owner of an old plein air box with some small tubes of oil paint. And visions of grandeur, which quickly vaporized upon applying paint to surface.

Any new discipline is wrought with challenges and much frustration and this was no exception. YouTube tutorials became familiar and that led to workshops that opened access to local legends of art that share their years of experience. The passion to paint took over and disappointment turned into

challenges, the challenges started to show improvement, and eventually a piece was framed. The final test where something has been considered worthy of sharing. Looking back now, of course, this too was embarrassing but the threshold had been passed and the life of an artist emerged.

The local artist scene here in Humboldt is replete with talented artists of all disciplines. I have been fortunate to get to know so many of them and appreciate as each one influences my art perceptions. I am active in a plein air group that gathers weekly to paint locations throughout our varied landscape.

So influential is this pursuit that I now see compositions everywhere. I'll be mixing colors while driving, establishing values and hues. Looking for warms and cools, shadows and highlights. It's endless, exhausting, and wonderful. My phone is filled with reference photos and I am no longer concerned with failure. There is no failure, only studies in the development of the discipline in the age-old craft of oil painting.

My work can be seen at *Steven-TaylorArt.com* or *Sjtaylorart* on Instagram.

NOTICE TO PROPERTY OWNER: The sale date shown on this notice of sale may be postponed one or more times by the mortgagee, beneficiary, trustee, or a court, pursuant to Section 2924g of the California Civil Code. The law requires that information about trustee sale postponements be made available to you and to the public, as a courtesy to those not present at the sale. If you wish to learn whether your sale date has been postponed, and, if applicable, the rescheduled time and date for the sale of this property, you may call (800) 683-2468 or visit this Internet Web site: www.servicelinkASAP.com, using the Trustee Sale number assigned to this file, T.S. #22079-PR. Information about postponements that are very short in duration or that occur close in time to the scheduled sale may not immediately be reflected in the telephone information or on the Internet Web site. The best way to verify postponement information is to attend the scheduled sale. NOTICE TO TENANT: You may have a right to purchase this property after the trustee auction pursuant to Section 2924m of the California Civil Code. If you are an "eligible tenant buyer," you can purchase the property if you match the last and highest bid placed at the trustee auction. If you are an "eligible bidder," you may be able to purchase the property if you exceed the last and highest bid placed at the trustee auction. There are three steps to exercising this right of purchase. First, 48 hours after the date of the trustee sale, you can call (800) 683-2468, or visit this internet

website www.servicelinkASAP.com, using the file number assigned to this case 22079-PR to find the date on which the trustee's sale was held, the amount of the last and highest bid, and the address of the trustee. Second, you must send a written notice of intent to place a bid so that the trustee receives it no more than 15 days after the trustee's sale. Third, you must submit a bid, by remitting the funds and affidavit described in Section 2924m(c) of the Civil Code, so that the trustee receives it no more than 45 days after the trustee's sale. If you think you may qualify as an "eligible tenant buyer" or "eligible bidder", you should consider contacting an attorney or appropriate real estate professional immediately for advice regarding this potential right to purchase. Robert Charles Gelder

July 11, 1946 – Nov. 30, 2022

Robert Charles Gelder (“Sarge”) passed away peacefully at home in McKinleyville on Nov. 30, 2022, at the age of 76, with loved ones by his side.

Bob didn’t just live life with gusto; he devoured it and brought the party with him wherever he went. He was a kind and generous man who expressed his appreciation in a profound manner, all the while not realizing the impact he had on people.

To him, he was just being himself and doing what comes naturally. He thrived on lifting people’s spirits and making them smile.

Born in Torrance, California, on July 11, 1946, Bob grew up in Redondo Beach and Palos Verdes, becoming the typical surfer of the era, with blonde hair to match. His childhood was unusual, as he was born with ADHD - Attention Deficit Hyperactivity Disorder – but his parents made sure he had the latest cutting-edge medical treatment. Most children in that time were institutionalized, as was pointed out by a V.A. psychiatrist decades later, giving Bob even more respect for his parents’ efforts to provide him the best opportunities while living at home.

He went to private school for “special” kids until the sixth grade and then joined public school. In 1967 Bob enlisted in the army during the Vietnam War and spent three years in the 4th Armored Division in Schwabach, Germany, as a medic. While in Germany, Russia invaded Czechoslovakia as part of the “Prague Spring” and his division was activated with the 2nd Squadron being given highest priority as a reconnaissance unit.

After returning from Germany, Bob ran into a friend in Southern California who had discovered a town up north called Fortuna and urged him to visit. So he packed his stuff into his woodpaneled truck, and when Bob saw the Eel River Valley he knew he’d never leave. He worked on ranches and did some logging.

He was also a custodian at the Humboldt County courthouse for 10 years where he played some mischief on the County Veterans Service Officer at that time, Stephen Gallant, and placed everything on his desk in the opposite direction from seating.

Bob continued his military service for 21 years as a combat engineer with the California Army National Guard, 579th Engineers in Eureka, 12 Bravo, retiring in 1999. As far as working with explosives, he said “it’s the most fun you can have with your pants on; you build shit and blow it up.” His evaluation reports say it all: “A real go-get-em attitude. Truly concerned about people in the unit. Always there for any mission.”

The Kinetic Sculpture Race will no longer be seeing Sarge’s truck with the iconic rubber chicken tied to the front grille. He was a “peon” with June Moxon’s team and did logistics, helping to move their bicycles from place to place during the race and assisting in whatever way he could.

His involvement initially came about in 1996 when KHUM needed help for their radio coverage of the race and the National Guard was called. They sent out Bob in what thereafter came to be known as the KHUM-V.

He introduced himself and said, “Call me Sarge.” And the name has stuck ever since. His special cookies had quite a reputation within the kinetic family.

Another of Bob’s passions was being involved with the North Coast Stand Down, a three-day event for veterans. In 2006 he started out as a volunteer in pet services where veterans could bring their dogs and cats for veterinarian checkups and supplies. The Stand Down benefited from Bob’s role as lead coordinator, pet services advisor, and eventually board member. To say he will be sorely missed is an understatement.

Music was a big driver in Bob’s life. He enjoyed bluegrass, rock and roll, classic country western, and most any soulful expression. The Blues by the Bay festival was definite party time. He played the trumpet growing up and also sang in the church choir.

Bob liked working the land, gardening, and feeding the LFB’s – little fat birds. He gave wonderful foot massages. Kitty cats were a nurturing presence in his life and never ceased to amuse him. He created “Sarge’s Salve” that relieved many a sore muscle. This he gifted to those in need who appreciated its magical powers.

Bob met his partner of the last 17 years, Rebecca (“Reevee”) Rimson, through a mutual friend’s matchmaking, and both their lives were forever enriched. He was capable of unbelievable quantities of affection and love. Bob encouraged Reevee in every facet of her life, always pushing to a higher level.

A great blessing in Bob’s life was Noble Cumming. For many years Bob lived with Lilli Sommer, Noble’s mother, in Eureka. Noble was a young lad of seven and Bob was privileged to see him develop into the fine man he is today.

When Noble moved to the East Coast, their conversations were a highlight of the week and Bob was so proud of him.

We also want to acknowledge the numerous friends too many to list whom Bob considered family. He held you near and dear to his heart. Please know that you were important to him.

Bob was preceded in death by his father, Robert Tolman Gelder; his mother, Mary Bernice Williams; and cousin Janet Harrison.

He is survived by his partner, Reevee Rimson; Reevee’s brother and sister-in-law, Jack and Gina Rimson of McKinleyville, and their children; cousin Judi Scott of Laguna Hills, Calif.; uncle Bob Williams of Huntington Beach, Calif.; and Noble Cumming and spouse Nancy Rivera of Brooklyn, New York, and their children.

The family is grateful for the superb teamwork and invaluable care of Hospice of Humboldt and V.A. Home Based Primary Care. We also appreciate our caregiver, Lia, for being on hand and lending a hand.

There will be a Wang Dang Doodle of a celebration of Bob’s life in the warmer days of 2023. If you listen to Koko Taylor’s rendition of the song, you’ll get the flavor.

All Bob asks is, “Remember me with my grin and my hat!”

OBITUARY

Evelyn Griffith-Natt, ‘Grammy Bugs’

Evelyn Griffith Natt, affectionately embraced as “Grammy Bugs” passed away peacefully on Dec. 27, 2022 at the age of 82 surrounded by her immediate family and dearest of loved ones. Just as in life, Grammy Bugs departed in her own way, on her own time and with the utmost grace and dignity. A proud member of the Yurok Tribe and descendant of the Karuk Tribe, and an especially cherished Tribal Elder and life-long resident of Humboldt County-Pecwan, Hoopa Valley, and Westhaven-Trinidad, Calif.

Evelyn was born on May 10, 1940 on the Hoopa Indian Reservation. She attended grade school on the Yurok Indian Reservation, Hoopa Valley High School and briefly pursued clinical nursing in Riverside, Calif. before relocating back to the Hoopa Indian Reservation to care for her baby sister, Gloria.

It would be caregiving, her faith in God, and teachings of unconditional LOVE that would prove to be Grammy’s greatest ‘life-ministry’. Grammy Bugs was the most compassionate of caregivers and provided hospice care and

end of life in-home care to countless Humboldt County Residents both Native and Non-Native, including many Tribal Elders from the Yurok Tribe, Hoopa Tribe, Karuk Tribe, Bear River Rancheria, Trinidad Rancheria, Wailaki, and retired HSU Professors, retired physicians, attorneys and so many others. She often shared that her caregiving nature came early on when she was tasked as a young-lady with baby-sitting the son of Wayne Bare Truckin – Gary Bare, back-in-the-day as she put it. In-fact, Grandmother’s love and advocacy for children was the passion nearest and dearest to her heart. After raising her own children, Grammy Bugs would go on to nurture-mother-parent-foster countless grandchildren, great grandchildren, tribal foster youth, and was always a strong voice and advocate for protecting our Indian Children from trauma.

Evelyn is survived by her two remaining children, Hector Natt of Crescent City and Dawn Valerie Natt of McKinleyville and the three Grandchildren she raised as her own, Allen Don McCloskey of Trinidad, Tasha Jimenez of McKinleyville and Donovan Natt of Crescent City and her many other Grandchildren, Great and Great-Great-Grandchildren.

She was proceeded in death by her son Don “G.T.” Natt, her daughter Flo Natt, Mother Lucinda Joe Griffith, Father Earl Griffith Sr., Brother “Hunchie”, Sister Delores A. Moon.

Visitation and services shall be held at Paul’s Chapel, 1070 H St. in Arcata on Friday, Jan. 6, 2023, from 11 a.m. to 1 p.m., directly followed by services from 1 a.m. to 3 p.m. with the Rev. Sondra Duff Officiating. Honorary bearers will be: Hector W. Natt Sr., Allen Don McCloskey, Donovan W. Natt, Bronson Moon Sr., Jose Ramirez, Donte Lamber-son-Natt, Richard McCovey II,

Javier Ramirez, Jimmy Moon, Patrick Jimenez, Kellie Shaner, Allen Lane McCloskey, Hector W. Natt Jr., Damien Natt, Donovan W. Natt Jr., Cameron Cox, Earl Moon Sr., Eugene Masten, Michael Masten, Kevin Lockhart, and Leo Carpenter. A reception and celebration of life will be hosted by the Yurok Tribe and the family at the Arcata Community Center, 321 Dr. Martin Luther King, Jr., Parkway Arcata, directly following services. Everyone is encouraged to bring potluck items and their stories of Grammy Bugs as we want it to be a time of sharing and celebration of such a strong Native Woman.

The family would like to express their deepest appreciation to the Yurok Tribe, Hospice of Humboldt, Dawn V. Natt (Caregiver), City of Arcata Parks and Recreation and the entire team of caregivers that have been a part of Grandmothers journey. We thank you all for you love and support. May the Lord bless you and keep you for your graciousness.
